Laos Country Brief  
Bringing evidence & people together to tackle drug resistance for a healthier world

Who We Are
The Fleming Fund is the world’s single largest Official Development Assistance (ODA) investment in global AMR surveillance.

It is a £265million UK aid programme supporting up to 24 low- and middle-income countries (LMICs) to generate, share and use antimicrobial resistance (AMR) data.

The Fleming Fund is a UK Department of Health and Social Care (DHSC) programme made up of a Country and Regional Grants and Fellowships Programme managed by Mott MacDonald, and a variety of Global Projects, managed directly by DHSC.

Country Context
Laos has a National Strategic Plan on Antimicrobial Resistance (2019 – 2023) which has been endorsed by both the Ministry of Health and the Ministry of Agriculture and Forestry.

More information about Laos and its work on AMR can be found on the Fleming Fund website at: https://www.flemingfund.org/countries/Laos
