**Who We Are**

The Fleming Fund is the world’s single largest Official Development Assistance (ODA) investment in global AMR surveillance. It is a £265 million UK aid programme supporting up to 24 low- and middle-income countries (LMICs) to generate, share and use antimicrobial resistance (AMR) data.

The Fleming Fund is a UK Department of Health and Social Care (DHSC) programme made up of a Country and Regional Grants and Fellowships Programme managed by Mott MacDonald, and a variety of Global Projects, managed directly by DHSC.

**Country Context**

Papua New Guinea developed a multisectoral National Action Plan (NAP) on Antimicrobial Resistance (2017-2020). The NAP was a joint effort by the National Department of Health, Department of Agriculture and Livestock and the Department of Environment and Conservation.

More information about Papua New Guinea and its work on AMR can be found on the Fleming Fund website at: [https://www.flemingfund.org/countries/papua-new-guinea](https://www.flemingfund.org/countries/papua-new-guinea)
