Who We Are
The Fleming Fund is the world’s single largest Official Development Assistance (ODA) investment in global AMR surveillance.

It is a £265 million UK aid programme supporting up to 24 low- and middle-income countries (LMICs) to generate, share and use antimicrobial resistance (AMR) data.

The Fleming Fund is a UK Department of Health and Social Care (DHSC) programme made up of a Country and Regional Grants and Fellowships Programme managed by Mott MacDonald, and a variety of Global Projects, managed directly by DHSC.

Country Context
Momentum on addressing AMR has increased in Pakistan since 2016, as demonstrated by the development of a National AMR Framework, AMR National Action Plan, and a Multi-Sector AMR Steering Committee.

More information about Pakistan and its work on AMR can be found on the Fleming Fund website at: https://www.flemingfund.org/countries/pakistan
